

Candle Bark

Community community it's a sea of opportunity
With our friends together everyday, to run to jump to climb and play
Up the mountain every week, to talk and walk and look and speak
Every Friday when we get together with projects making Blue Gum better

Community

Verse 1

Community we play forever
Making friends bond together
We help each other to be free
We are a big connected tree

Try new things out together
Everyone united forever
Community in unity
We have this opportunity.

CH:

V2:
Trusty and a shiny dream
Everybody's in the team
When someone is there for you
You feel like you're part of the crew

Community is simply the best
It always puts you to the test
If rocky times knock you down
Your friends can turn your frown around.

CH:

Bridge
You can have some help and work together
In community we all have a treasure
Asus
You can be yourself
You don't need to act like anybody else

Three parts

V1

Ch x2
